There's nothing more frustrating than to travel a long distance to a dance only to discover when you arrive that some of your outfit is still at home. Well, now you can eliminate that problem with this handy check list. Just place it in your suitcase, then when you start to pack, go down the list and make sure that all your pieces are ready to go. You can also use this list as a reminder of what you still need to complete your outfit. NOTE: If you are appearing in public, always wear a bathing suit or shorts!
